

NOVEMBER 26TH

Female Sale

DMCC

DIAMOND M CATTLE COMPANY

WELCOME TO THE 2023 FEMALE OFFERING

A meaningful, powerful, COW BASE IS THE MOST IMPORTANT THING AT DMCC. Making impactful females is our pride in the business, helping bring real and proven value to our customer's programs.

Females presented here are a result of careful mating decisions, many are ET calves out of our top donors. There has been a very high demand for bred heifers at DMCC, and we feel that this group is outstanding in terms of versatility and true foundation. It's no secret that we have sold countless heifer calves over the years in our sale that have become the matrons of Simmental cowherds across the country. There are heifer calves in this year's sale with that same DONOR COW IMAGE.

Being in the business for over 30 years has built so many valuable relationships and we are happy to be a small part of your cowherd success! We have a Female Sale every fall, and a Bull Sale every spring. We continue to see and hear positive stories from those who have trusted DMCC genetics and who have built programs around their initial DMCC female purchases. Time passes by and trends change, but at DMCC, one thing remains the same, WE BUILD ON COW FAMILIES, and we stack them.

Make plans for November 26th at the Ranch in Hiawatha, Kansas, at 2pm. The offering is available anytime for viewing. If you are not able to come look, give one of our trusted sale-day contacts a call!

Our family looks forward to seeing you!

The Muellers

MARK AND MATT

DIAMOND M CATTLE COMPANY

NOVEMBER 26 2:00 PM HIAWATHA, KANSAS, AT THE RANCH

RANCH LOCATION:

Please call if directions are needed. There are a lot of minimum maintenance roads around the ranch, and GPS could take you down them if you are not familiar with the area.

GPS Address:

1757 300th St. Hiawatha, KS 66434

Directions:

North on 73 Hwy out of Hiawatha, Turn East on 290th St., Turn North on Mulberry Rd., and turn East on 300th St.

LLSF PAYS TO BELIEVE ZU194

SJF DIONNE

1102

As a breeder, what is your core goal when starting the purchasing process? Every answer will have some variation. But at Diamond M, we answer the question with a question. "How will this animal help our cow base?" To us the phrase "cow base" is simple, how an animal will contribute to continuing a herd's success. Will this animal have the longevity and sustainability to prove their worth year after year? We had this discussion when evaluating Lot 1's dam, some years ago. It is safe to say we made the right decision. Her dominance as a donor female in our program looks to continue in her lineage with DMCC Love Song.

The solid black 3/4 Change is Coming female, is much more than elite. We feel she is influential, to your herd, and your breeding decisions. She will be a strong and stable part of your "cow base".

 BEYOND BELIEF

A popular cow family in recent years has been the JBSF Bella 307B's. True producers provide look and substance in all aspects of the business. They seem to always find their way to the top in the cattle programs they join, just as their mother did. The sisters' lots 2 & 3, you may recall, are also full sibs to the high-selling female from the 2022 DMCC Female sale, DMCC Secret Star 154H. Their style and softness of the middle resembles big sis almost identically. Not to mention the way both females lay into that smooth shoulder. Whether you desire a blaze face or a solid black finish, rest assured that you are investing in a tried and true cow family.

AUBREYS BLACKBLAZE II 5T

We have experimented a little with some breeding decisions in recent years. Mating some of our Maine Anjou genetics with our Simmental donors. Mainly it has been DMCC Game Changer mated with several sims. This time to a genetic full sib to W/C Loaded Up and DMCC 3A. The cross has proved that the old adage, breeding good cattle to good cattle, can still get you good cattle. And we believe that philosophy can be forgotten from time to time. But no truer example than lot 26. Soggy-bellied, donor prospect, with a ton of the desired look, that literally is the definition of versatility.

DMCC DIAMOND GIRL 5U

As you look at the Maine female offering, feel free to ask questions about some of the names in the pedigrees. As we get further and further away from some pedigrees, it's important to remember how influential they have been to the industry. Just because it isn't new, doesn't make it bad. These bloodlines are what sustained many a breeder and organization for decades. And that is why a few of these females, like the lot 29 and 30 heifers are so intriguing. Game Changer mixed with a Strictly Business X Epinal, and then mixed with Duff New Edition. Longevity and consistency. Cattle that you can count on.

DMCC GABRIELLE 36G

D81

Secret Weapon has given our breed and our herd a lot of qualities and consistency. Maybe none more prevalent than the overall eye appeal that he delivers almost upon request. Lot 35 is no exception. A gorgeous blaze face who is easy on the eyes but shows off even more when she eases into her gate. Youth and beauty are plentiful in DMCC JF9 Daisy.

As I stated with lot 26, we have been testing our Maine genetics with our Simmental. The added hybrid vigor has been fantastic. We love the animals produced. Game Changer's dam x Secret Weapon. The influence that both sides of this pedigree have should produce elite offspring, and perhaps a perfect fit for a club calf producer.

Due 24-Jan to

If you are looking for a big middled bred female, that's ready for turn out and ready to flat get to work, lot 38 is right up your alley. An extremely thick and powerful female. That keeps it all together in a sound style. And being an April Valley Angus descendant on her bottom side never hurts. Powerful bloodlines for a powerful female.

One of our most popular matings for our herd sire DMCC Hitman has been on Angus females. The power and performance that they contain as they mature have been off the chart. That goes for the bulls and heifers alike. And it further provides one with a sense of security in breeding to him. Here is a female that is smooth in her design and lines. Love the way she comes up and out of her shoulder.

CARD BLACKCAP 652

It would be a shame to not describe our only set of twins together. These were both raised by the same momma and to note their performance is quite an understatement. Their dam did an exquisite job, and it again provides added verification of the milk and mothering ability of Lock N Load bred cattle. Qualities that carry over into their offspring as well.

DMCC DIAMOND GIRL 5U

A hidden gem at Diamond M was DMCC Darkhorse 72F. A Pays to Believe X 5T . Yes, a full brother to lot 31. A sire that provided cattle with many the same attributes he possessed. All are enormously large-footed cattle that ooze longevity. Lot 42 has the added shot of Maine genetics, which again may prove to be the answer when breeding for steers or crossbred females.
