

Female Sale

DMCC

11.27.22

Welcome

WELCOME TO THE 2022 FEMALE OFFERING,

Our goal has always been to maintain a **consistent, impactful cowherd**. To produce the kind of versatile females that can bring real value to our customers. In this offering you will find show heifers and bred females with the potential to be future donors.

We've been in business for over 30 years. We have a Female Sale every fall, and now have a Bull Sale every spring. We continue to see and hear positive stories from those who have trusted DMCC genetics throughout the years. Many have built programs around their initial DMCC female purchases and continue to experience a genuine return. We are happy to be a small part of your cowherd success!

As time passes by and trends change, one thing remains the same for us. **We build on cow families**, and we stack them. From that we get - **predictability**. Our cowherd has produced national champions, A.I. Sires for major semen companies, and just a good functional kind of cattle that do their job.

Females that you can build on will sell November 27th at the Ranch in Hiawatha, Kansas, at 2pm.

The offering is available anytime for viewing.

See you at the sale!

CONSISTENCY in a cow herd is something that we have stood by for a long time. **VERSATILITY** in a female is in high demand among breeders as they search for that special one to build upon. Diamond M Cattle have been working for a variety of seedstock and show cattle operations, proving sustainability across multiple breeds, environments and breeding goals.

See Lot 1.

 DMCC SARAH 52S

A dual registered % Simmental and Mainetainer female. A calf that not only exhibits attributes from one of the most uniformly consistent bulls to breed a cow, but from decades of proven Maine-Anjou breeding that sent Diamond M to the forefront of the Maine breed. These genetics have been proven to stand strong against the competition on a yearly basis. Examples range from Maine and Simmental cattle being shown today, to steers and club calves being sold from past donors.

DMCC Dinero is the lesser-known brother of the famed DMCC Destiny 222D female who was champion PB SM at the FWSS. But his offspring are starting to make a lot of noise. Here in lot 10, lot 35, to the bulls that have been sold, his popularity is growing. Dinero cattle commonly have the squarest of hips and are extra stout, with a strong topline. Compare the females in the sale and I believe you will see some similarities and be excited at the cattle they will become.

Future

One of the new donors at DMCC is F720. Currently becoming a favorite here among the help. Relatively quietly she has produced one of our top selling bulls from the '22 bull sale in DMCC Churchill, owned by Ryan Byrd, and now has produced 3 females for our current sale. Two of which, lots 15 and 16, look identical. Love the shape of belly of these Hitman heifers, the deep flanks, and thickness over their topline. Can't wait for more F720 mating's to come this spring!

In the forementioned footnote, I spoke on the maternal sib to lot 17, DMCC Churchill. Who many described as "The man" in the early parts of March this year. If you witnessed his impeccable stature, you will recall his foot size, structural soundness, and ruggedness. A true brute. DMCC Karmen is that but in heifer form. While carrying most of her brother's stoutness and qualities, she is also a belly dragging, ground sow, that is ready for production.

DMCC GLAMOROUS 7G
DMCC ANNABELLE 3A

Certain females are just memorable. The DMCC Glamorous 7G donor falls in that category. The '19 sale model was, to this date, one of the thickest and yet soundest females to go through the ring. A full sister to DMCC Hiawatha to boot! So, when the Aust family from La Cygne, Ks offered us embryos out of her, we jumped at the opportunity! Three calves, however, this is the only heifer, and boy she doesn't disappoint. You love this long bodied, deep quartered heifer on the stand, but fall for her even more when you see how she moves off of those wheels.

DMCC HOLLYWOOD 39H - DAM
AS A CALF

A quote I read not too long ago said "The past is where you learned the lesson. The future is where you apply the lesson." I feel like that describes this heifer's pedigree perfectly. As we deliberated on what to breed this Secret Weapon dam to, we fell on the old sire, Dream On. Reason being, we remembered all of the awesome females he had produced, and with our herd being somewhat removed from those bloodlines, we thought we would give him a shot. The right thing happened. The way this female comes up out of her neck is elite and has a fabulous running gear. A focal point, especially in the show ring world.

BLACK BLAZE II 5T - GRANDDAM

Possibly one of the lesser-known sires to walk to grounds of Northeast Kansas has been DMCC Dark Horse. A Pays to Believe son by way of 5T. A bull that had tremendous growth, ground pounding feet, but pulled it together with a unique skeletal make up. In our eyes, a perfect purebred to clean up on a set of feminine Angus females. As luck would have it, our A.I. conception rate has been outstanding and we have only a few sired calves from this marvel of a bull. Don't miss this opportunity to get one of the few we are reluctantly selling this November.

DUFF NEW EDITION 6108
DMCC SUNSHINE 118E
 DMCC CORN 202U

In the first set of calves by DMCC Game Changer, he produced the high selling female from the '21 female sale, as well as the High selling Maine Anjou based bull in our '22 bull sale. He has been providing an array of eye appeal and stoutness, unseen on most Maine-Angus cattle. We have used him predominantly on making double bred half-bloods, as in lot 31, a full sister

to the forementioned high selling Maine bull. Don't forget this heifer's Great grandam is the one and only DMCC Pridette 67C. Diamond M royalty, and the mother of DMCC Body Builder.

DMCC BODYBUILDER II 77SS
DMCC ESMERELDA 94E ET
 DMCC PERFECT ANGEL 36E

This was only our second round of breeding to the Ain't Bluffin bull. Ever time he has provided cattle with a lot to offer. Appreciate the quantity of bone, hair, and freaky neck length, but on this heifer, what sets her apart from most other Ain't bluffin's is her genotype. She has DMCC Perfect Angel 36E as a granddam and DMCC Pridette 67C as a great granddam. For those who don't remember, these females were amongst the greats in the Maines and have continued to turn up in pedigrees for years.

The Tara female (pictured) has been a key producer for the Prestige Cattle Company herd. From show winning heifers, to consistently selling bulls, she has staked her claim to being one of the best 216Y daughters. We feel that lot 34 is going to give big sis a run for her money as she continues to grow, and mature.
